

Rainwater Rewards Program

The City of Apple Valley will offer financial assistance to landowners interested in installing water quality project improvement projects: raingardens, shoreline buffers, and native gardens. The goal of the program is to empower landowners to make positive impacts to the quality and quantity of water resources—lakes, ponds, and wetlands—in their community.

GIVE ME THE DETAILS

Projects may receive 50% the cost of the water quality improvement component of their project, not to exceed \$500 per lot or project. **All funding is distributed on a first-come, first serve basis.** Preference will be given to projects with a high impact to water quality (such as raingardens) and for complete applications from first-time applicants. This is a reimbursement grant; paid receipts and project photos are required before final payment.

WHAT IS THE PROCESS?

1. **Attend** a Dakota County Landscaping for Clean Water (LCW) Introductory Workshop. We highly encourage applicants to attend the LCW Design Workshops to complete your project design.
2. **Submit** application with your selected design.
3. **Complete** required maintenance agreement upon staff approval.
4. **Install** your project per approved plan, take photos, & inform staff when your project is complete.
5. **Submit** paid receipts (outlining eligible items) & photos for reimbursement.
6. **Maintain** and enjoy the project for a minimum of 5 years.
7. **Celebrate** your project! Let the City feature your project in City communications.

REIMBURSEMENT

- Maintenance agreement must be approved by the City of Apple Valley prior to the start of construction to be eligible for reimbursement.
- Projects must be completed and installed **no later than October 1st** in the year approved.
- Prior to reimbursement, City staff must perform a final inspection that confirms all conditions of the grant agreement have been met and receive a copy of all paid receipts to verify expenses.
- Paid receipts must be itemized and received by November 15th in the year of grant approval.
- If the project is receiving assistance from any other organizations, the sum of all monies received from all organizations must not exceed the total cost of the project or reimbursement under this program will be adjusted accordingly.
- Project locations shall not impede existing easements, right-of-way, or utility locations.
- Funding caps for materials may be implemented – contact City staff with questions.
- Staff may inform you of any required permitting.

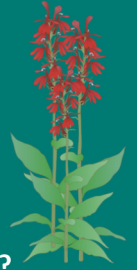

See reverse side for application and additional information

WHO IS ELIGIBLE?

All landowners in Apple Valley.

WHAT IS ELIGIBLE?

- Raingardens
- Shoreline buffers
- Native gardens
- Rented equipment

WHAT IS NOT ELIGIBLE?
